

Dear Team captains, dear competitors,

Due to unexpected situation related to WGC 2018 Pribram, Czech Republic, we have been forced to ask FAI and IGC to change location of competition from Pribram to Hosin (LKHS). The situation limited usable RWY dimensions and caused limitation for free use of airfield area in Pribram.

As we preferred change of location before cancelation of competition we offered Hosin airfield to be used for competition

Hosin is app. 80 km south of Pribram, close to city Ceske Budejovice, major city of Southern Bohemia.

Airfield itself is smaller compare to Pribram, nevertheless big enough to run competition with 90 gliders.

Airfield will be for our use only so no other intensive operation will run there during period of training and competition.

The organising staff will be the same as planned for Pribram.

Task area stays same as for Pribram. Majority of flights will be directed to same area as of Pribram. TP file and AS file will be modified slightly.

The organiser of WGC 2018 will reimburse all proven, paid, non-refundable costs for accommodation paid by pilots/teams.

We assured FAI and IGC to do our best to organise safe, smooth and pleasant competition.

We offer assistance in finding new accomodations for teams or individuals that may need help and help with obtaining refunds of accomodations.

We are in intensive contact with Chief Steward and IGC Bureau working on the new Local Procedures and other documents.

We are truly sorry for any inconvenience caused by this change.

For further information please regularly check competition website or contact us using email info@wgc2018.cz.

Tomas RENDLA
competiton director

Hosin, May 29th, 2018
